You Make No Mistake if You Buy a
Deere or Velie Buggy

DEERE VEHICLES besides being the most durable and comfortable, with wide seats and large bodies, of any line of vehicles on the market, are thoroughly protected with the

Purest of Paints and Varnishes.

The wood parts on all **DEERE VEHICLES** are painted first before ironing, assuring protection under the iron parts.

The paints used are made of **PURE** white lead, **PURE** Oxide of zinc, **PURE** Tinting colors and driers mixed and ground in **PURE** Linseed oil, finished with the very best **SUN** and **RAIN** proof varnish thoroughly brushed in, which make them last and wear well.

Will be glad to show you their many points of merit.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine or known composition, not even though the urgent dealer may thereby make a little bigger profit. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

Mr. and Mrs. Will White and son, Edwin, and Mr. and Mrs. Edward Opie have returned from a vacation trip and visit in Colorado.

Miss Verna Griffith returned last Friday from Santa Monica, Cal., where she has been spending the summer vacation with her sister, Mrs. Ed Fouch.

Mrs. Jane Lightbody has been here the past few days for a visit with old friends and neighbors, while on her way to her home in Pueblo after a visit with relatives in the east. While here she was the guest of Mrs. McBride and Mrs. Jennie Castle.

James Tabler, on the poor farm, has sold \$465 worth of Kharkoff wheat raised on a ten acre patch and has 60 bushels on hand yet. That is selling wheat at a good price, as well as getting a good yield off of an acre.

FOR SALE—One half section, well improved, in Pawnee county. \$80.00 per acre. Whitcomb & Werhahn.

Many farmers have been using seed graders in preparing their wheat for seeding. It is an excellent idea, insuring a cleaner crop each time. See L. B. Wilcox about the grader he sells.

Anton Linster, Joe Husig, and Alois Charvat, three prosperous farmers, of Cheyenne township, were in town Wednesday on business, and made us a pleasant call. The latter took out his first naturalization papers.

Phillip Grossardt, accompanied by his sisters, Miss Ricka Grossardt and Mrs. Sophia Sucko, were down from north of Claffin Thursday morning on business. This is another illustration of the use of the auto. These people live 33 miles from Great Bend. They left home after seven o'clock, were here before nine, done all the business they had to do and got back home in time for dinner.

By grading your seed wheat you will be sure to get a cleaner field next year. See L. B. Wilcox for a grader.

Farmers Are Kings.

After rascating for a few weeks among them, Mr. Wilson, secretary of the federal department of agriculture, declares that the western farmers are living like kings. Sure they are. And who have a better right? For years and years the most of them have been fighting strenuous battles for their little kingdoms. The vicissitudes which they have experienced have been many. Their rewards are now great, but not any greater than they should be.

As Mr. Wilson observes most of the farmers have their farms paid for. Mortgages on their property are hodge of the past. Their fences are in excellent repair. The fields are working with regularity in the production of valuable crops, and in place of debts staring them in their faces they have bank rolls of money, many of them of a size and purchasing power that would make a few of the kings of ancient day turn green with envy if they could return to the sphere of the living and take a trip through the lands of the agrarians.

With the surplus of money which is flowing in steady streams toward their pockets the farmers are building for themselves and their families magnificent homes which are the equals of some of the best to be found in the cities. They are buying

automobiles by the thousands and indulging in such other luxuries as suit their fancies. In fact, as Mr. Wilson says, they are living like kings and if any class of men is entitled to such lives it like kings. Sure they are. And who have a better right? For years and years the most of them have been fighting strenuous battles for their little kingdoms. The vicissitudes which they have experienced have been many. Their rewards are now great, but not any greater than they should be.

Their wonderful successes should also act as a stimulant to many others to follow in their footsteps. There is plenty of room for newcomers in all of the best agricultural industry. More crops of all kinds are needed at home and abroad, and for years and years to come, forever, in fact, there will be large remunerative returns to those who have the courage to go out and conquer the soil and grow the things that everybody needs.—Topeka Journal.
